## **18 States**

**Do you want to see where you match up against the best in the country?**

**Do you consider yourself the best of the best?**

**Do you want to hold the title of being the best in your weight class and age division?**

**Do you want to be crowned as National Champion knowing you beat the best from every state?**

**Then NUWAY is the place for you!**

**NUWAY is the only National Championship series that has a 3 stage qualifying process in America today!**

**NUWAY has 18 States associations competing as of right now, with many other states waiting to join. Do the states listed below traditionally represent some of the best wrestling states in the country?**

**With NUWAY each wrestler has to go through a qualification process within their own state. For example: If you live in Ohio the only way you can wrestle in NUWAY is by first wrestling in your OURWAY regional and placing in the top % of your weight class to advance to state. In turn you have to place in the top % of the OURWAY State tournament to advance to the NUWAY Nationals. There is no other National tournament that has this type of stringent requirements. So if you want to see where you match up against the best, or if you think you are the best of the best, and want to be considered the best in your age group and weight class, then NUWAY is the place for you.**
